First Set of Question and Answer (Q&A)

Request for Quotations Number SJA800-15-Q-1089
Printers and Printer Related Items

Question 1:

"Should the language of the operating system (OS) for printers be in English or Japanese?"

Answer 1:

The language of the operating system shall be in English.

Question 2:

"May the printers, which will be provided, be Fuji Xerox products if they have the same capacity as HP products?"

Answer 2:

No. The U.S. Government requires HP products as described in the Request for Quotations.

Question 3:

"Please advise the average number of papers to be printed per month for both monochrome and color printing."

Answer 3:

The U.S. Government anticipates approximately 1,000 copies for monochrome printing and approximately 1,000 copies for color printing per month.
